DATA ANALYZER

MODERN STATISTICAL SOFTWARE
FOR ALL REQUIREMENTS

Our web-based data collection and visualisation network is established and future innovative precast concrete manufacturers.

Whether you need the current machine performance in tabular and visual form, wish to access the current plant status (production, downtime, waiting time) in real time, or even want to view the chronological record of all machine functions. All this data is available on demand and can be viewed, saved and processed on mobile devices such as smartphones, tablets or on the integrated PC for statistical analysis.
